**Soil Importation Application for 145/175 South Street**

Attorney Lane is present for his client. Not sure of what the Town of Uxbridge, Board of Health, is looking for with this application.

Kristin Black analyses the Boards reasons for instituting a Soil Importation Regulation. Some of these are several failed soils testing's, infrequency of testing's and the fact that there has never been a site walk done at the South Street site with the Board and a third party LSP.

Discussions continued to third party (LSP'S) and the 53G account that applicants would be required to deposit monies to with their application.

The Board asked Attorney Lane/Owner of 145/175 South Street for a \$10,000 deposit to be made in ten business days to a 53G account in order to pay our LSP for his services and a mutually agreeable time for a site walk on either Tuesday August 29<sup>th</sup> or Thursday August 31<sup>st</sup>.

**Recent Complaints**

**775 Millville Road,** complaint of oil sheen in a puddle that formed in the imported soil and a creamy white substance oozing from a hill behind the water puddle.

**200 Quaker Highway, McDonald's,** by David Tapscott, several complaints, persons driving by or having lunch have been complaining about the order of septage. McDonalds has plans on hand and a date of next year to install a new system. Each time I went to the site I did not smell any odor.
