**POLICY OF THE BOARD OF SELECTMEN
TOWN OF UXBRIDGE, MASSACHUSETTS**

STREET NAMING POLICY & REGULATIONS

PURPOSE

The Town of Uxbridge Street Naming Policy and Regulations has been adopted for the purpose of providing proper implementation, administration and enforcement of a uniform street naming policy promoting the general health, safety, welfare and convenience of the inhabitants of the Town of Uxbridge by reducing the difficulty in responding to individual residences, commercial properties and non-profit locations in cases of police, fire, medical or other emergency situations requiring immediate location determination and response; decreasing the potential for traffic accidents caused by motorists searching for address locations; and by assisting the planning efforts of a growing community.

POLICY & REGULATIONS

Selection of street names: The Board of Selectmen (Board) must approve all street names used in the town of Uxbridge in advance. Street name suggestions that should be given preference for new streets include Veteran names from the Uxbridge Wall of Honor, local historical figure, place or event. Street names that are believed to be offensive (slang, double meaning, etc.) shall be avoided and will not be considered by the Board of Selectmen. Only alphabetic characters and no punctuation shall be used in street names.

The Board will collaborate with the Public Safety Committee. The Board may solicit and consider, but need not use, street name suggestions from developers and residents. In no case shall a street name be used which, in the opinion of the Public Safety Committee, sounds like or can be easily confused with an existing street name and no proposed street name should duplicate an existing street irrespective of the use of the suffix (road, street, place, way, etc.).

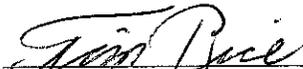

Street name approval: All proposed street names shall be submitted in writing to the Board for approval. Approved street names shall be listed on all final plans approved by the Uxbridge Planning Board.

Naming of Private Ways: When a private, unnamed road, regardless of the legal form of roadway ownership, provides ingress to and egress from more than three residences, the private road will be named by the Board. The Board shall consider, but need not use, suggestions from the property owners on the road.

Naming of New Subdivision Development: Prior to the submission of any Preliminary or Definitive subdivision plans to the Uxbridge Planning Board, all proposed street names must be submitted to the Board of Selectmen. No plan shall be approved without the approval of the Board.

Naming of Private Driveways: Naming of private driveways and shared driveways serving three or fewer units is prohibited unless Public Safety determines a name is necessary for public safety reasons.

The Board of Selectmen enacted this policy, by vote, at its regularly scheduled meeting on February 10, 2014 which was duly posted and noticed.
