POLICY OF THE BOARD OF SELECTMEN

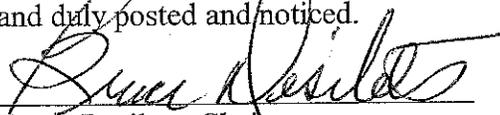

Winter Maintenance on Unaccepted Subdivision Streets and Private Ways

The purpose of this policy is to set a standard for the winter maintenance of unaccepted subdivision streets.

Policy:

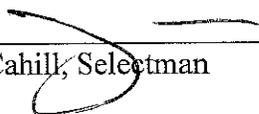

1. The Town will not provide service for winter maintenance operations (sanding, salting, plowing, etc) to any unaccepted subdivision roads or private roads. Winter maintenance operations for those streets or roads that are not currently accepted Town roadways shall be the responsibility of the developer or owner(s). The most current list of accepted Town roadways is maintained in the Town Clerk's office.
2. Private ways that were in existence prior to the acceptance of the Subdivision Rules and Regulations by the Town of Uxbridge (October 24, 1957) are not subject to this policy.
3. On an annual basis, the Board of Selectmen shall set a rate for reimbursement for emergency snow/ice removal services on unaccepted roadways. In the event that the town needs to provide emergency services to accommodate public safety vehicles and personnel during a storm event, due to the lack of adequate services by the developer/owner, the developers/owners will be billed by the DPW for each operation during each event.
4. The emergency winter services rate will be determined annually by the Department of Public Works and reported to the Town Manager no later than the first Board meeting following October 15. The emergency winter services fee will be assessed on a per occurrence basis.

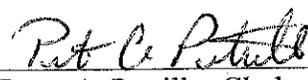

This policy is enacted by the Board of Selectmen by vote, at its regularly scheduled meeting January 9, 2012 and duly posted and noticed.
