Uxbridge High School, Water Quality Unit substitution – Mr. Luke Grady, Project Superintendent with Shawmut Design & Construction was present. Mr. Dominic Rinaldi, Senior Civil Engineer/Associate with BSC Group was present and provided a memorandum dated & received April 11th, providing support information updates to the status of the water quality treatment units at the new Uxbridge High School. A new proposal submitted by Stormceptor involves using the same size methodology as that used for the First Defense systems, resulting in a revision to Stormceptor models for three (3) of the six (6) stormwater quality units in the project. It is BSC Group's opinion that the alternate Stormceptor models proposed will allow the project to continue to meet Standard 4 of the Massachusetts Stormwater Management Standards by removing more than 80% of the annual total suspended solids or TSS load from stormwater runoff and therefore should not require submittal of an amended Notice of Intent of the project. Upon the Commission's review of the document, BSC Group requests that the Commission confirms this opinion. Following discussion, **MOTION** by Mr. Klei to issue an administrative change to the Notice of Intent for DEP #312-919 Uxbridge High School. Seconded by Mr. Lench, the motion carried unanimously.

MOTION by Mr. Klei to adjourn the meeting at 6:40 P.M. Seconded by Mr. Lench, the motion carried unanimously.

Respectfully Submitted by Donna C. Hardy, Conservation Commission Administrative Assistant.
