MAIN STREET INITIATIVE VISION STATEMENT

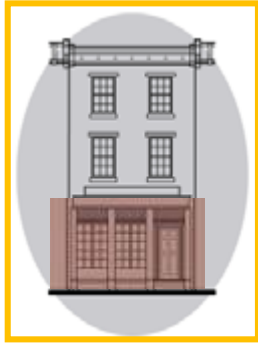

By the year 2027, the Uxbridge Main Street will be a center of community life based on solid planning and design that has blended the reuse of traditional commercial buildings with creative economic and community development activities, resulting in a new vibrancy that engages and is powered by residents, visitors, business owners, developers, and investors.

SENSE OF PLACE

People develop a "sense of place" through experience and knowledge of a particular area. A sense of place emerges through knowledge of the history, geography and geology of an area, its flora and fauna, the legends of a place, and a growing sense of the land and its history after living there for a time.
