

# TOWN MEETING ARTICLE 26

---

SUTTON STREET CULVERT REPLACEMENT  
AUTHORIZATION TO ACQUIRE PERMANENT  
AND TEMPORARY EASEMENTS

# SUTTON STREET CULVERT REPLACEMENT PROJECT

## Project Background/History

- MVP Permitting & Funding
  - Resiliency was the focus of MVP1
  - Sutton culvert was selected for funding due to declining condition
  - MVP funded preliminary design
  - Supplemental Chapter 90 funding was secured to complete the design
  - Construction funding approved through SATM 2023 Article 12
- Flooding Incidents
  - December 2023
  - January 2024

## Goals

- Replace failing culvert pipes & improve road surface
- Alleviate drainage issues within the project watershed
- Add resiliency to the watershed for years to come

# SUTTON STREET CULVERT REPLACEMENT PROJECT

## Purpose of Article 26

- Issue
  - Culvert infrastructure located outside Right-of-Way
  - Surveyor indicates there are no easements for existing or proposed infrastructure
- Resolution
  - Approx. 1,118 SF of permanent easement is required for both existing and proposed infrastructure improvements
- Town Meeting Action
  - Approval of Article 26 will authorize the Board of Selectmen to acquire the necessary easements to construct, maintain, and operate the infrastructure
